Unlock the potential of Crypto Banking fostering Digital Payments innovation

Accept and manage crypto payments

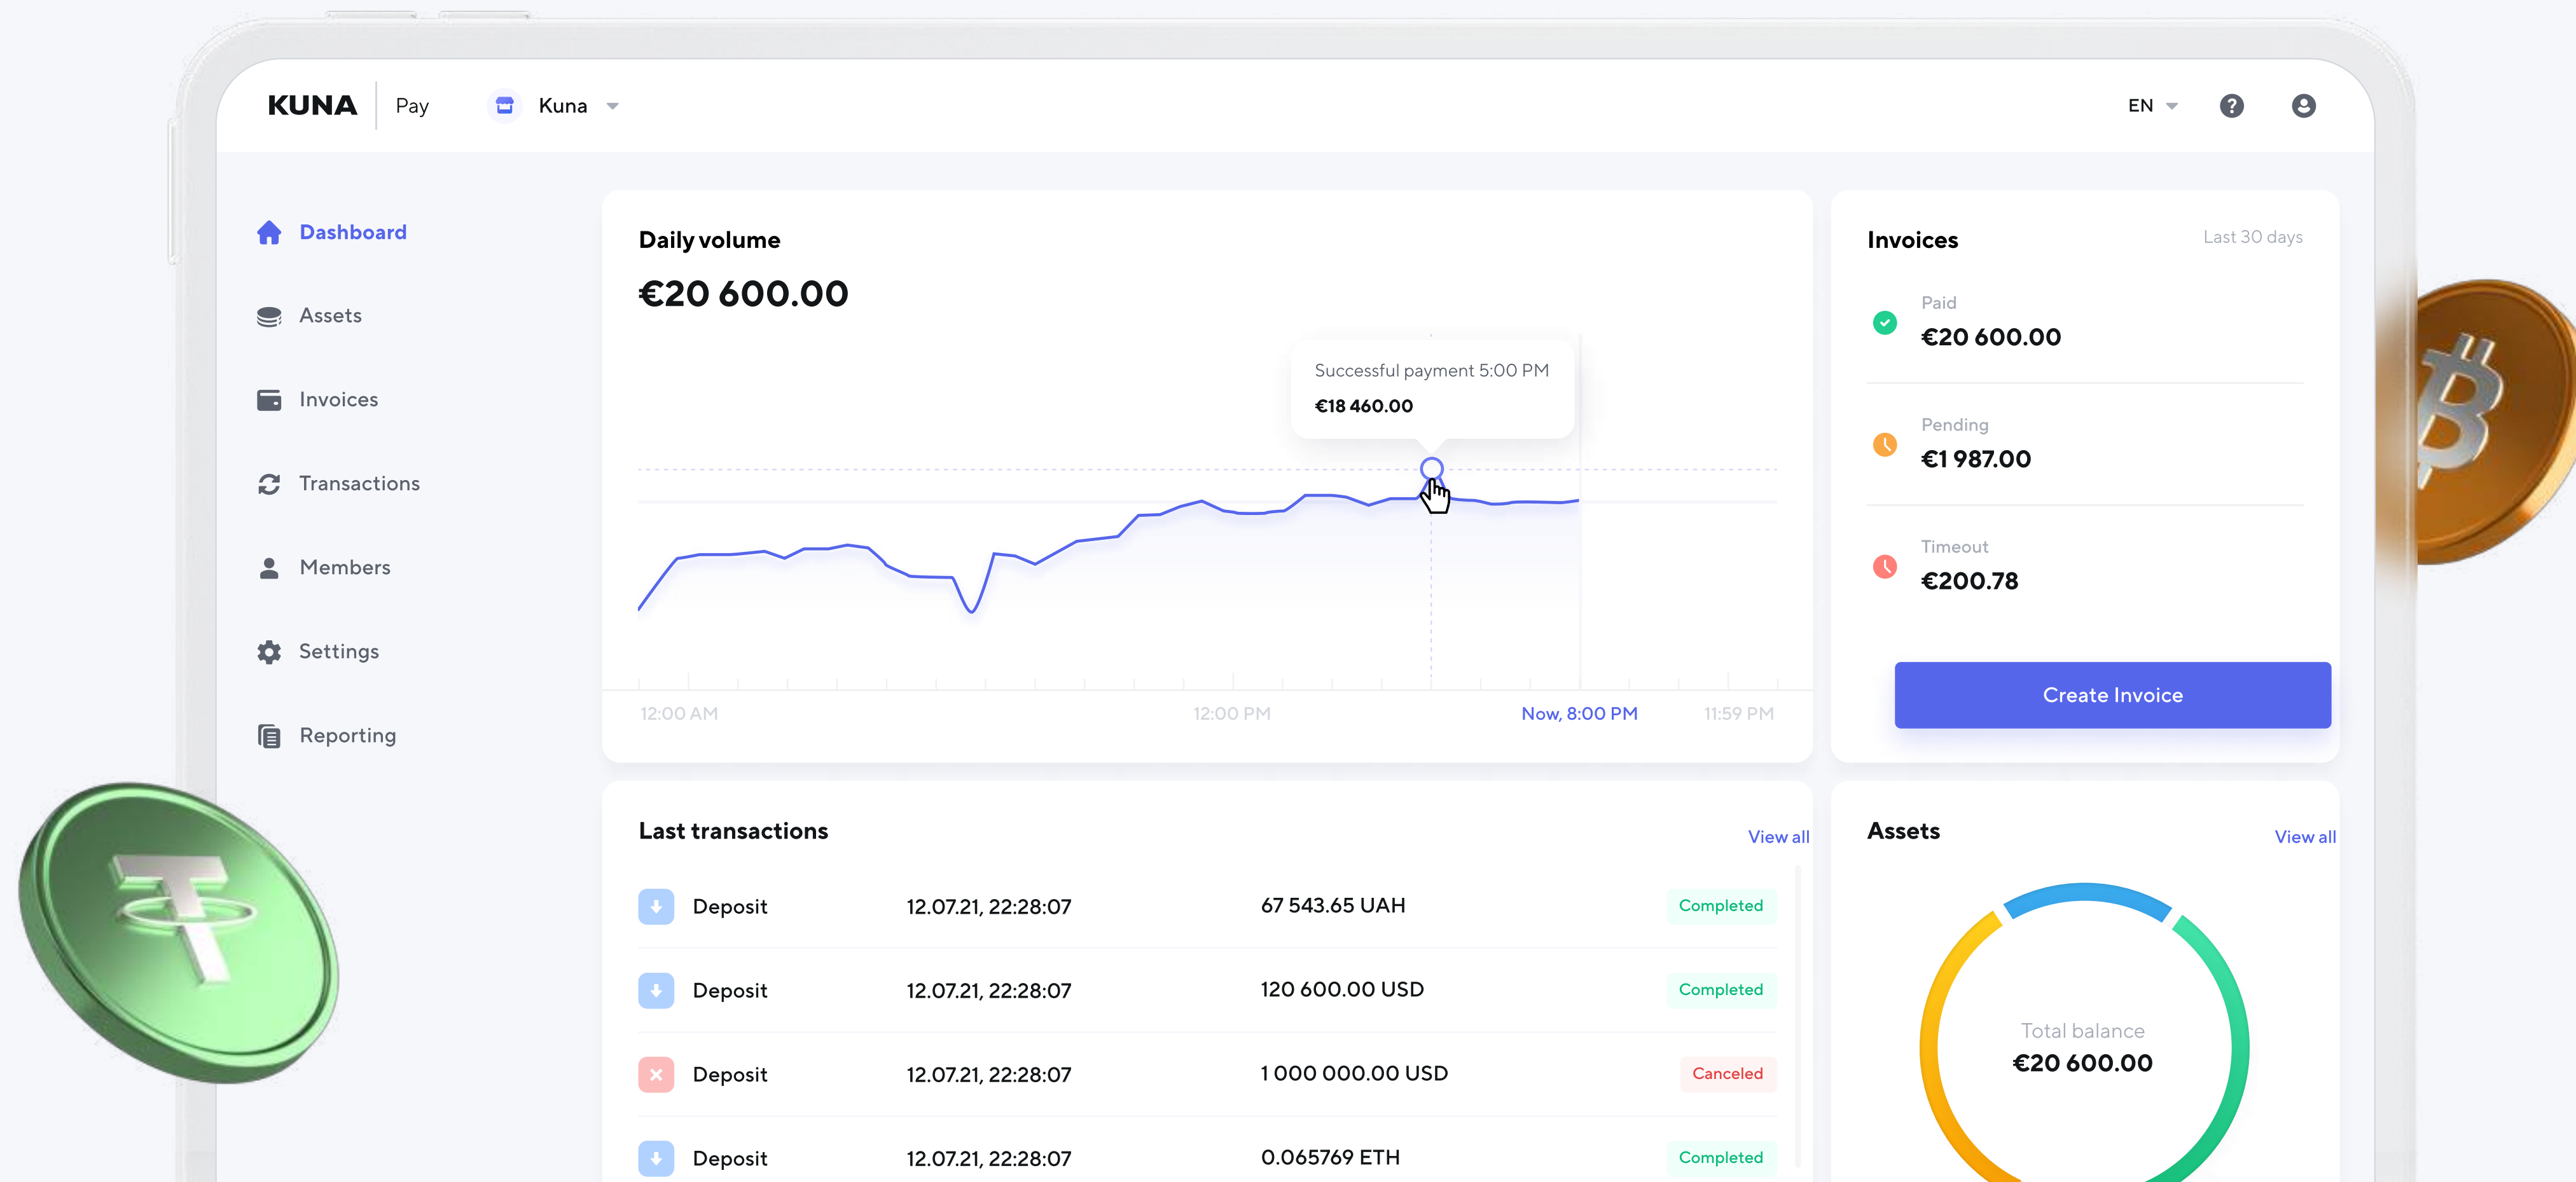

White label solution

Crypto Banking in White Label

Accept and manage payments in cryptocurrencies converting to other crypto or into fiat currencies in secure and reliable manner featuring robust API connectivity, enabling easy implementation into existing systems and platforms

Advantage of crypto banking powered by KUNA Pay

API Gateway

Leveraging on API integration, is possible to offer a customized, branded crypto payment experience, enhancing customer satisfaction and expanding payment options without extensive development efforts.

Invoice Management System

Streamline the entire invoicing process within your product. Automate the creation, distribution, tracking, and payment of invoices in crypto, enhancing efficiency and reducing errors

Service Level Agreement

Comprehensive SLA approach to guarantee performance expectations and the quality of service expected

Human Checkout

Your buyers can use nearly 20 cryptocurrencies to pay for the product or service.

Role Based Multi Account System

Manage multiple user accounts and roles within a single platform. This system provides granular control over user permissions and access rights

Auto Conversion Modul

Automatically convert crypto currencies or asset values based on predefined rules and real-time exchange rates

AML/KYC

All transactions are verified and checked with Chainanalysis, so no suspicious transaction would ever go to your wallet.

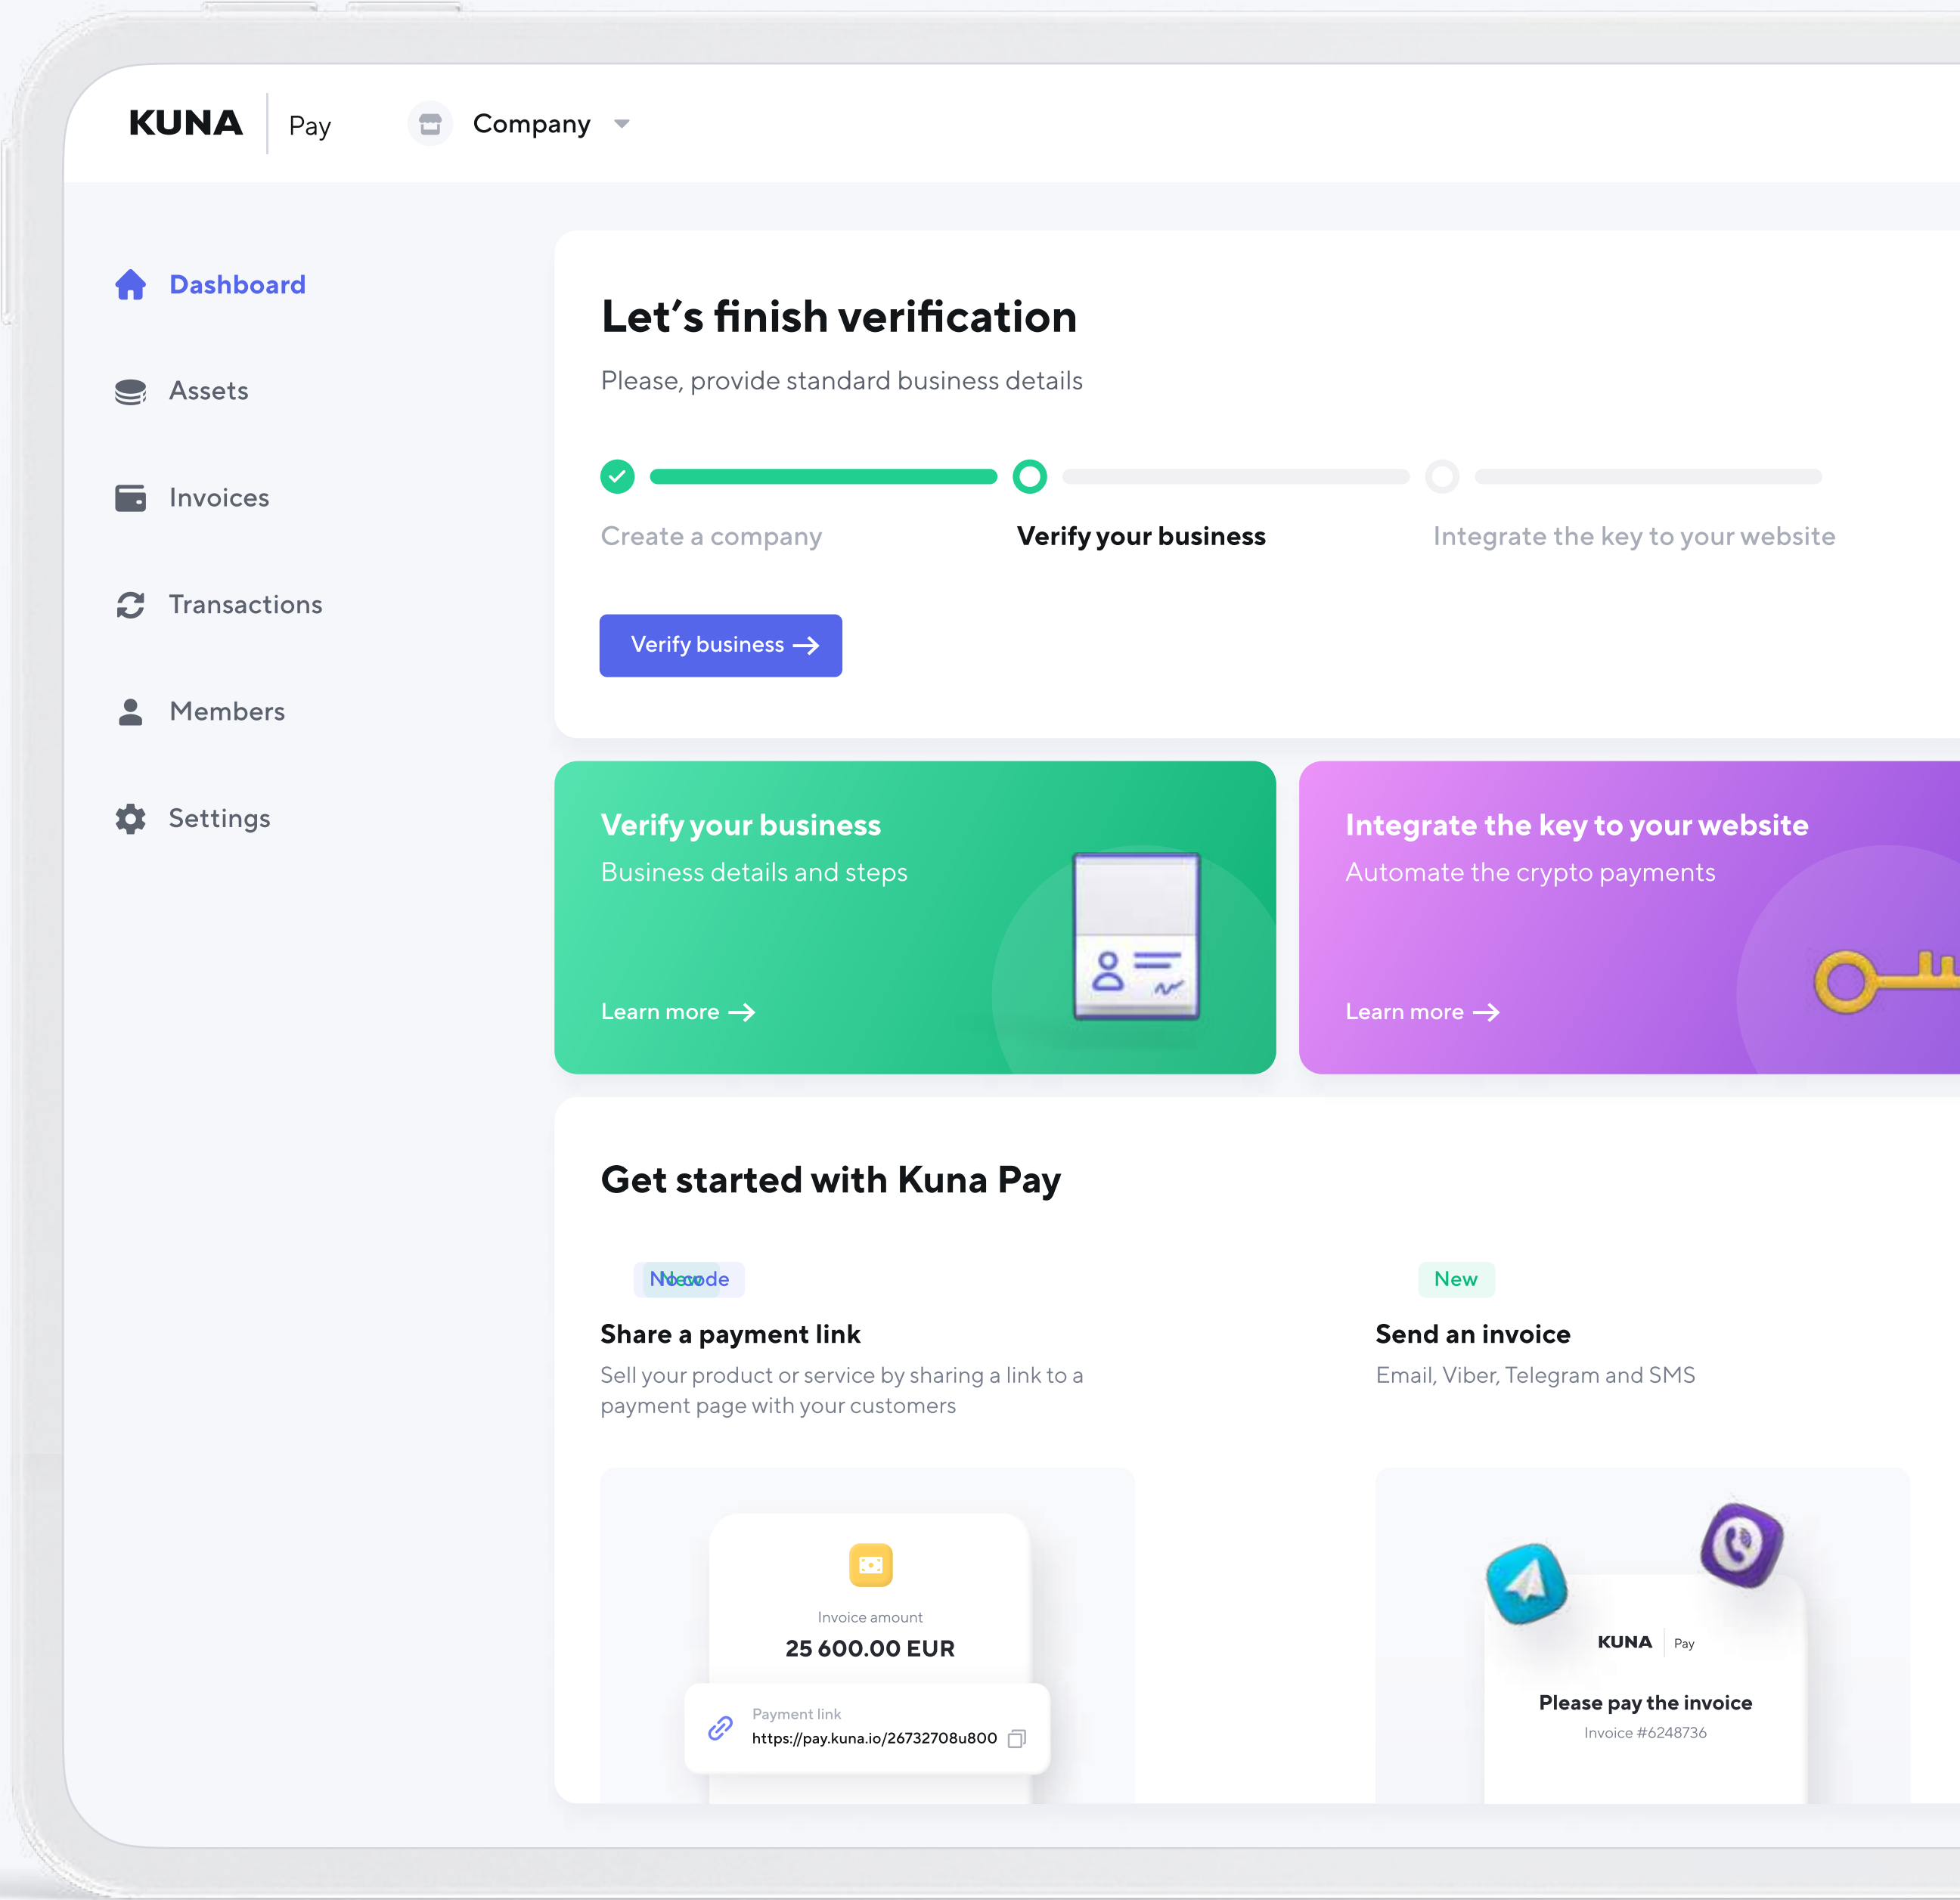

Settlement & Reporting

We provide settlement and statement reports, so you can quickly load them and share them with your bank
